

# COOL BATTERY GUIDE EASY

/ Information and management systems

/ With the Cool Battery Guide Easy information and management system, Fronius has developed a solution for greatly extending the service life of traction batteries. A control unit processes the signals of the individual battery charging systems and shows the user which battery has been fully charged for the longest and is therefore the coolest.

/ One Cool Battery Guide Easy allows up to 30 battery charging systems to be connected. Several control units can be coupled together for larger battery charging rooms and stations.

## THE ADVANTAGES

/ The system indicates which battery has been connected for the longest via a blue LED strip, intuitively guiding the user to the coolest battery. This improves the utilisation of the battery pool and increases the service life of the batteries. As the user always has access to a fully charged battery, constant availability of the forklift trucks is guaranteed. In addition, a signal can be output if the wrong battery is taken.

## TECHNICAL DATA

Mains voltage	230 V connection
Dimensions W/H/D [mm]	143 x 70 x 89 mm 304 x 200 x 125 mm (with enhanced IP protection)

## RECOMMENDED ACCESSORIES

### LED strips

- / Visualisation of state of charge
- / Blue light indicates that the connected battery has been charged for the longest out of all networked devices and is sufficiently cool
- / Ensures that the user always takes the most effective battery as a full charge is guaranteed

- Cool Battery Guide Easy with enhanced IP protection
- / Optimum protection for the Battery Guide Easy control unit

/ Perfect Welding / Solar Energy / Perfect Charging

### **WE HAVE THREE DIVISIONS AND ONE PASSION: SHIFTING THE LIMITS OF POSSIBILITY.**

/ Whether welding technology, photovoltaics or battery charging technology – our goal is clearly defined: to be the innovation leader. With around 3,300 employees worldwide, we shift the limits of what's possible - our record of over 900 granted patents is testimony to this. While others progress step by step, we innovate in leaps and bounds. Just as we've always done. The responsible use of our resources forms the basis of our corporate policy.
